Quick Guide to: Zoom Webinars

Getting Started

1. It is easier to download and test your Zoom before the meeting commences. Otherwise, you will be prompted to download and install Zoom when you click a join link. Visit [the Download Center](#) to download. Once downloaded you can [join a test meeting](#) to familiarize yourself with Zoom.
2. Each meeting has a unique 9, 10, or 11-digit number called a [meeting ID](#) that will be required to join a Zoom meeting. If you are joining via telephone, you will need the [teleconferencing number](#) provided in the invite. If you copy and paste this number into the meeting ID, make sure there are **no spaces or additional digits**.
3. For a video explanation of joining a zoom meeting, [click here](#), or watch the visit video below:

4. If you are unable to connect, check your network connection by opening a browser and ensure that you can access <https://zoom.us>. Change your settings to add "zoom.us" as a trusted application.
