[General Manager's Name]

[Council Name]

Dear [General Manager's Name],

I am a concerned constituent writing to you today regarding the issue of light pollution in our community. This letter is being sent on my behalf by the Australasian Dark Sky Alliance.

Light pollution is the fastest growing pollutant in the world, and I am writing to urge you and the council to consider implementing dark sky principles to reduce its impacts in our area. Light pollution not only affects our ability to enjoy the beauty of the night sky but has adverse effects on human health, wildlife, and the environment. Excessive artificial light at night disrupts natural ecosystems, interferes with wildlife behaviour, and contributes to energy waste and greenhouse gas emissions.

As a member of our community, I believe it is crucial for our council to take proactive steps to address this issue. Implementing dark sky principles, such as using shielded fixtures, reducing unnecessary outdoor lighting, and promoting energy-efficient lighting solutions, can help minimize light pollution while still ensuring safety and security in our neighbourhoods.

As such, I urge you to consider the following actions:

1. **Develop and implement a comprehensive light management plan** that incorporates dark sky principles and guidelines for new development projects and outdoor lighting installations.
2. **Conduct an assessment of existing outdoor lighting** in our community to identify areas of excessive light pollution.
3. **Educate residents and businesses** about the importance of reducing light pollution and provide resources and incentives to encourage the adoption of dark sky-friendly lighting practices.
4. **Collaborate with local stakeholders**, environmental organisations, and experts in the field to develop strategies for mitigating light pollution and preserving our natural night environment.

By taking these steps, our council can demonstrate its commitment to sustainability, environmental stewardship, and the well-being of our community. I believe that together, we can make a positive impact and create a brighter future for generations to come.

Thank you for considering my concerns. I look forward to hearing from you soon about the actions the council plans to take to address light pollution in our community.
